Summary

Aspiring AI/ML Developer with a strong Python foundation and hands-on experience building backend systems with FastAPI and PostgreSQL. Passionate about applying machine learning and deep learning techniques to solve real-world problems.

Education

Bachelor of Technology in Information Technology

SKIT Jaipur

Nov 2022 – May 2026

Jaipur, Rajasthan, India

Experience

InteriorX Pvt. Ltd

Backend Developer

Jun 2025 – Sept 2025

Jaipur, Rajasthan, India (Remote)

- Contributed to the MVP development of an early-stage service marketplace startup, implementing core backend logic for service booking and user management.

Kistechnosoftware Pvt. Ltd.

Backend developer Intern

July 2024 – August 2024

Jaipur, Rajasthan, India (Remote)

- Developed and optimized RESTful APIs for a task management system using Python and FastAPI, implementing robust CRUD operations and secure token-based authentication.
- PostgreSQL database. Used Postman for testing and Render for deployment, collaborating with frontend teams to enhance application performance.

Projects

License Plates Detector |

2025-2026

- Built a real-time License Plate Detection system using YOLOv8, training a custom object detection model on a labeled license plate dataset.
- Implemented end-to-end model deployment and prediction pipelines, enabling automatic license plate detection on unseen video inputs.

Document Verification |

2024

- Built a secure backend for document validation using FastAPI and PostgreSQL. Implemented JWT-based authentication, file upload APIs, and role-based access control for admin and users.
- Built and deployed Streamlit web app with interactive image upload, processing, and result visualization.

Technical Skills

Languages: Python **AI & ML:** Machine Learning, Deep Learning, TensorFlow, Pandas, NumPy, Matplotlib **Web:** Html, FastAPI
